

Wonderful World : Immerse reading Experience

Frame Sequence

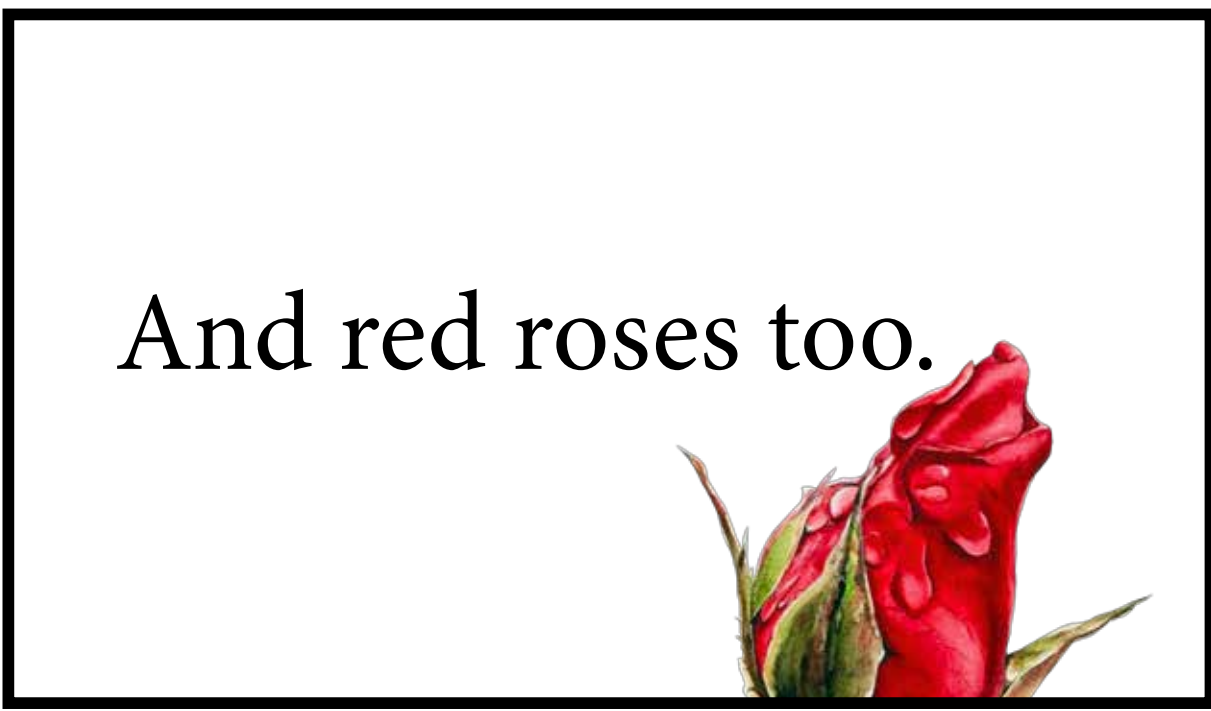

1.
As the user scrolls down, the text and image slide into the centre of the vertical hight of the viewport.

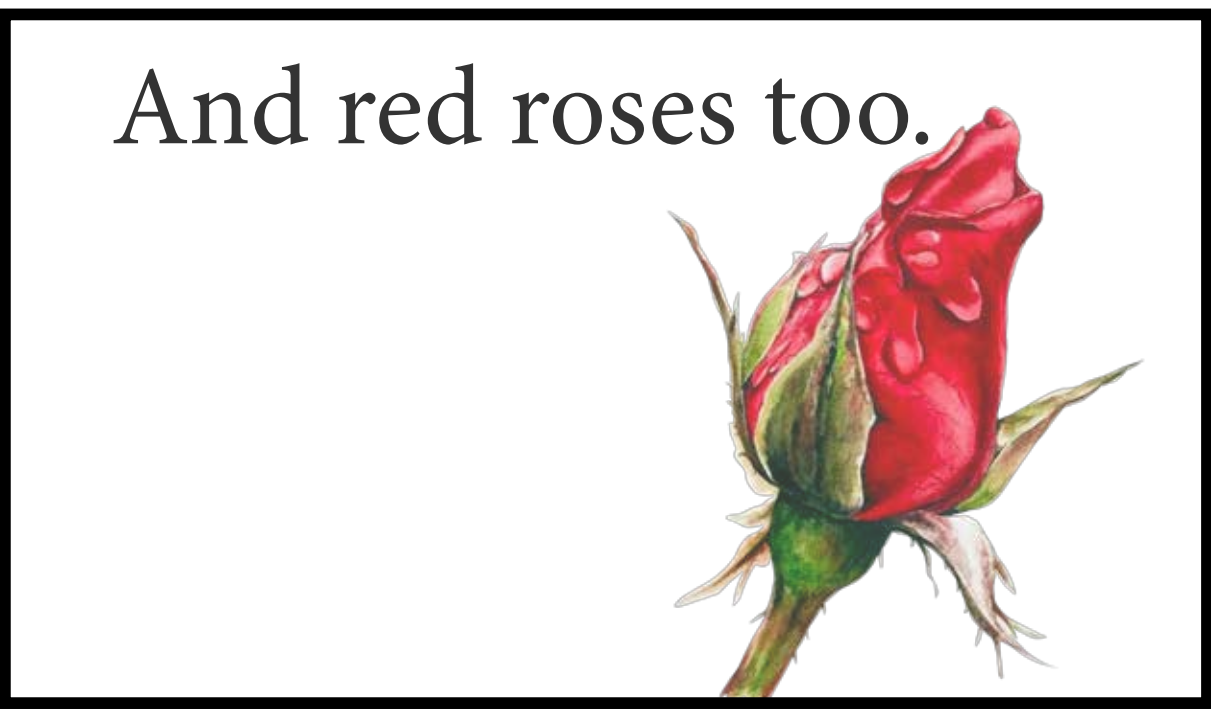

2.
As the user scrolls down, the text and the tree scroll upwards and begin to fade of the page. The next lyric comes up from the bottom in a smaller text.

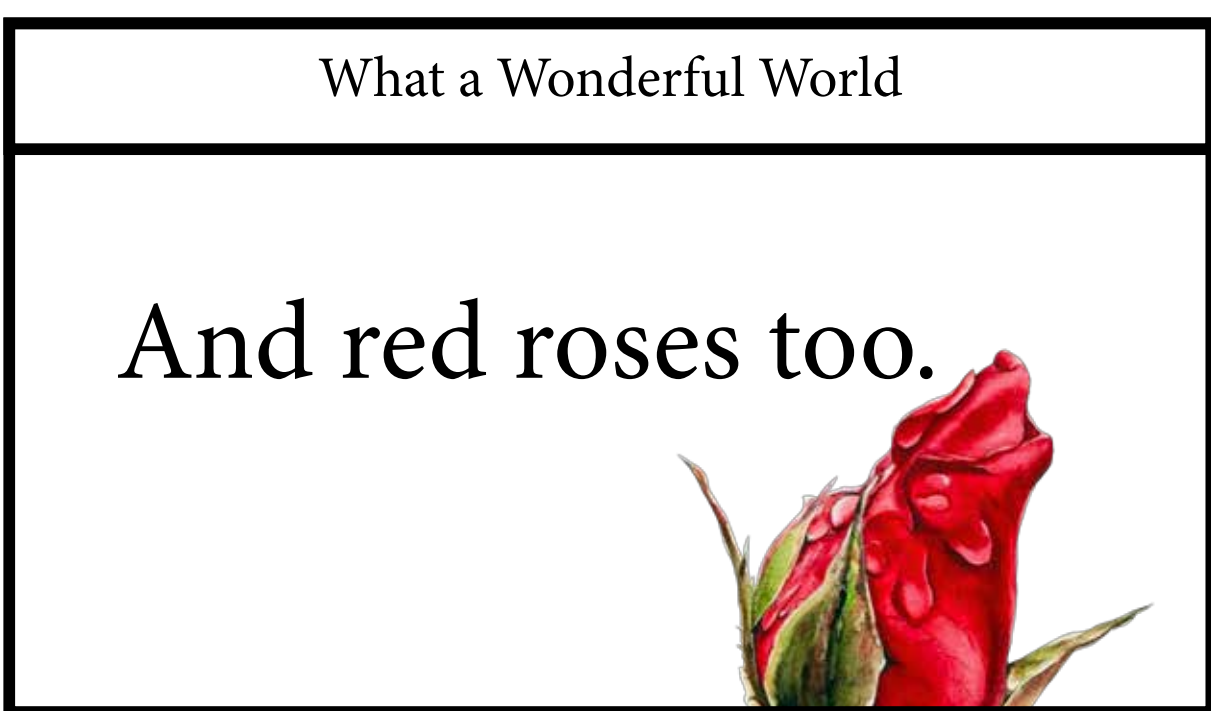

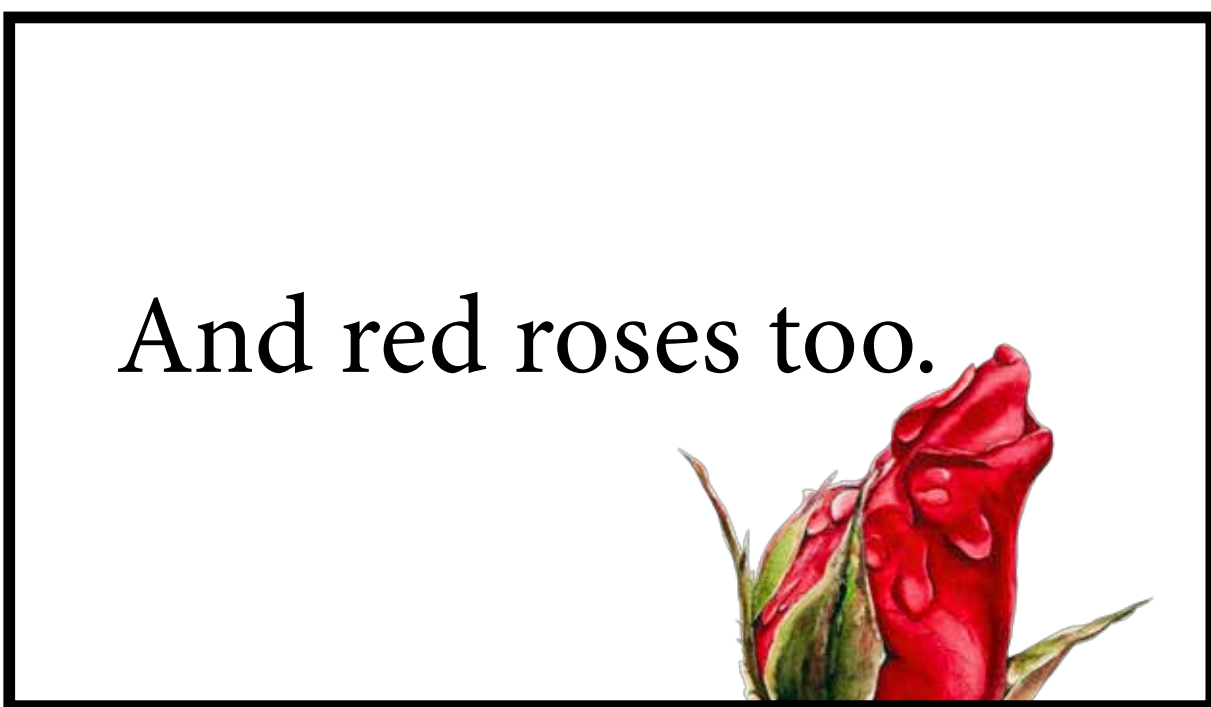

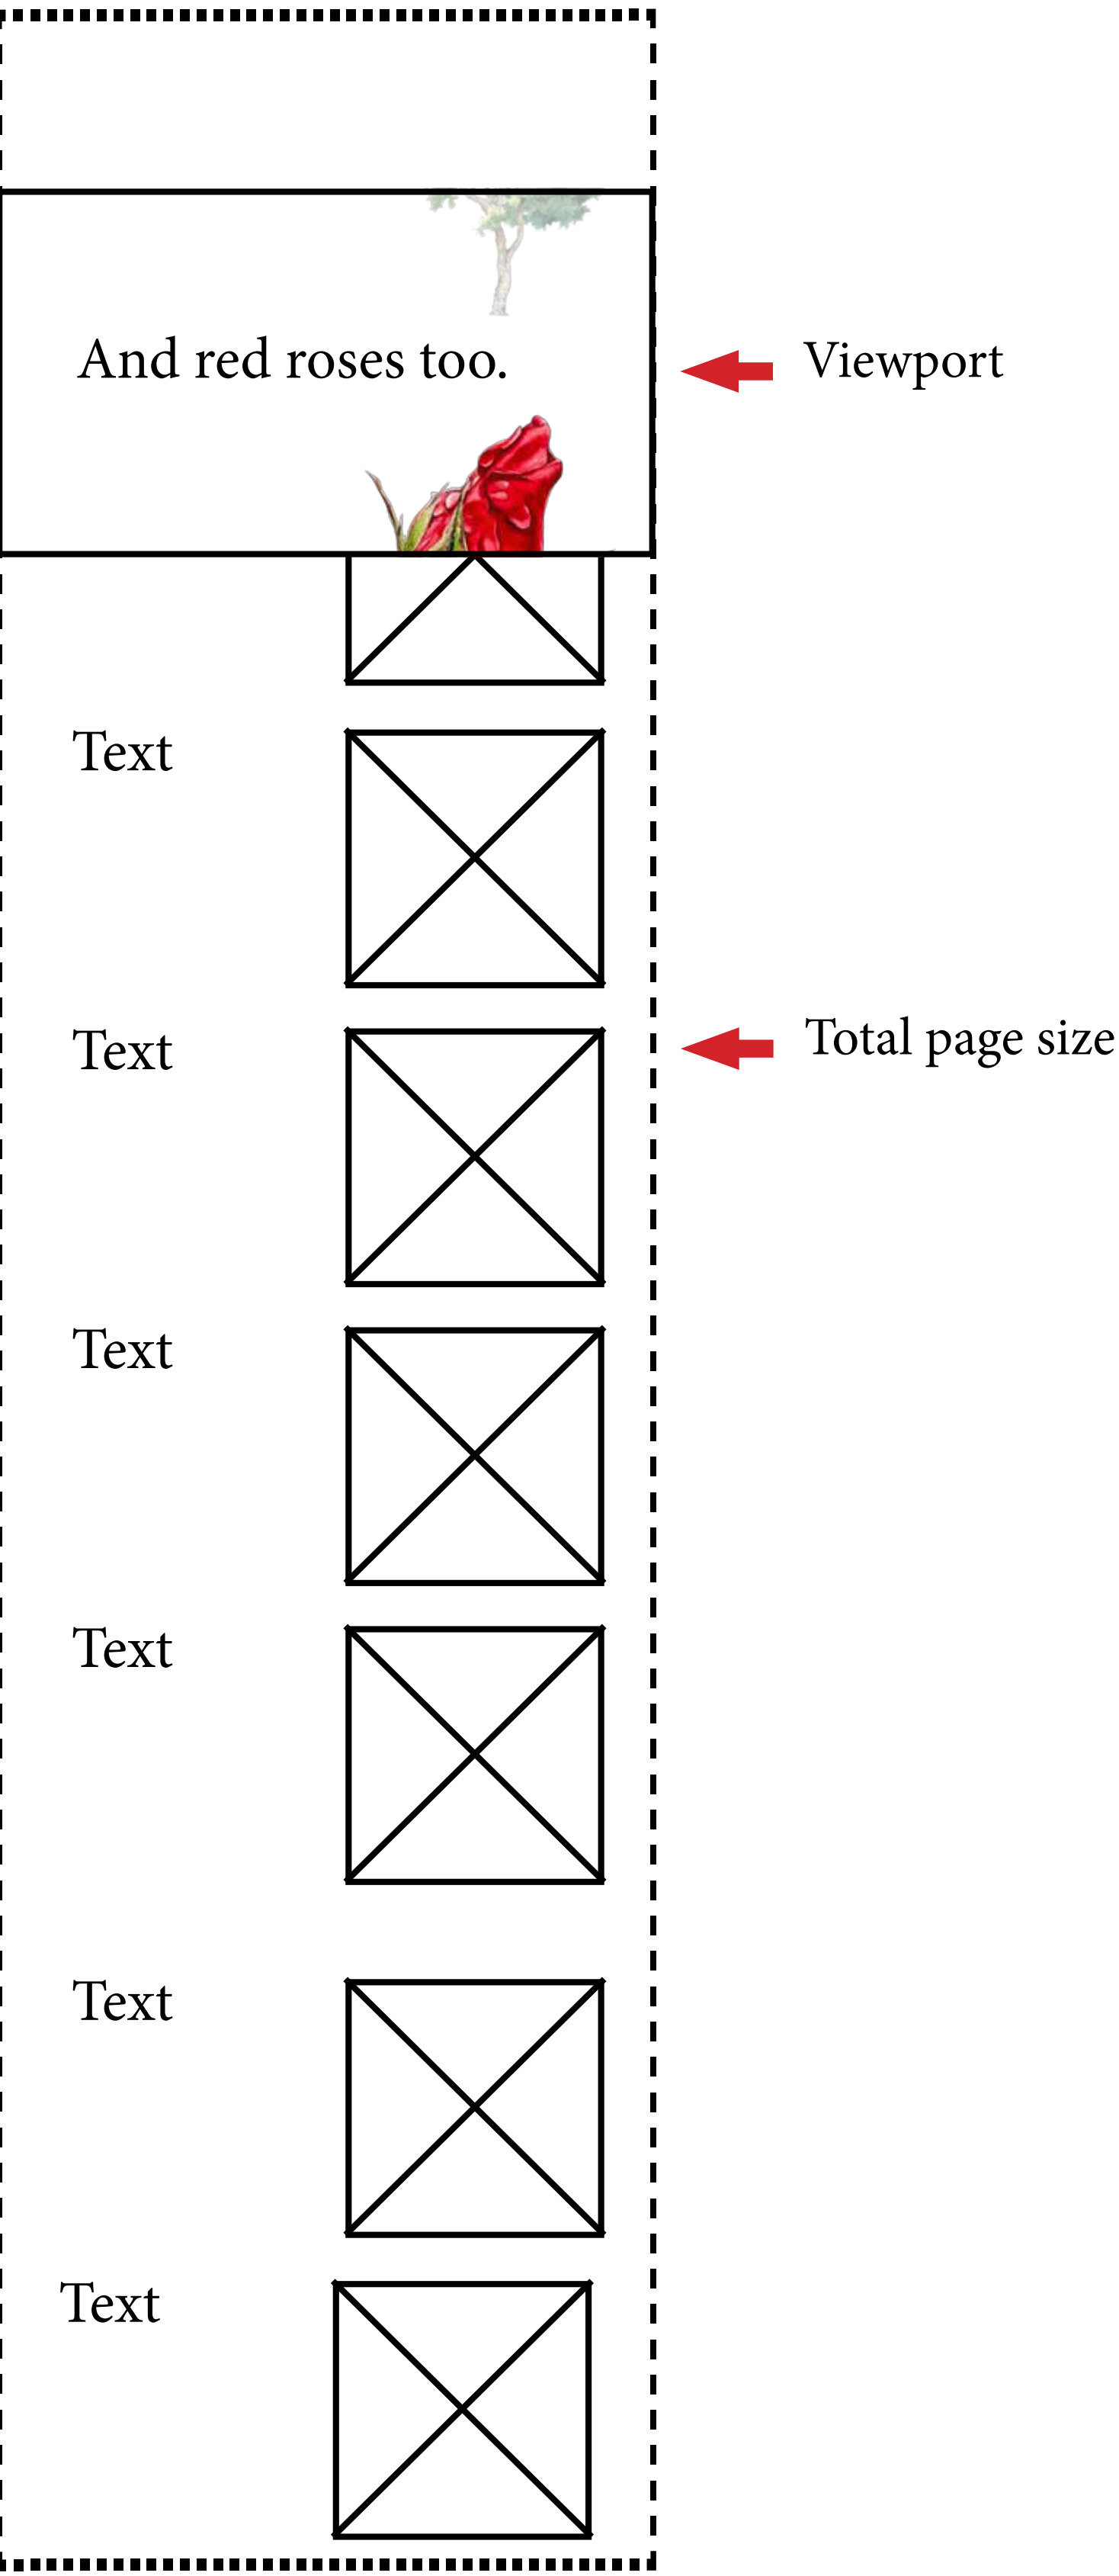

3.
As the user scrolls down, the next lyric comes up from the bottom and increases in size until it reaches the centre of the viewport. The image scrolls up to the centre at a different rate.

4.
Steps 1-3 will repeat for every line of the song.

Wireframe

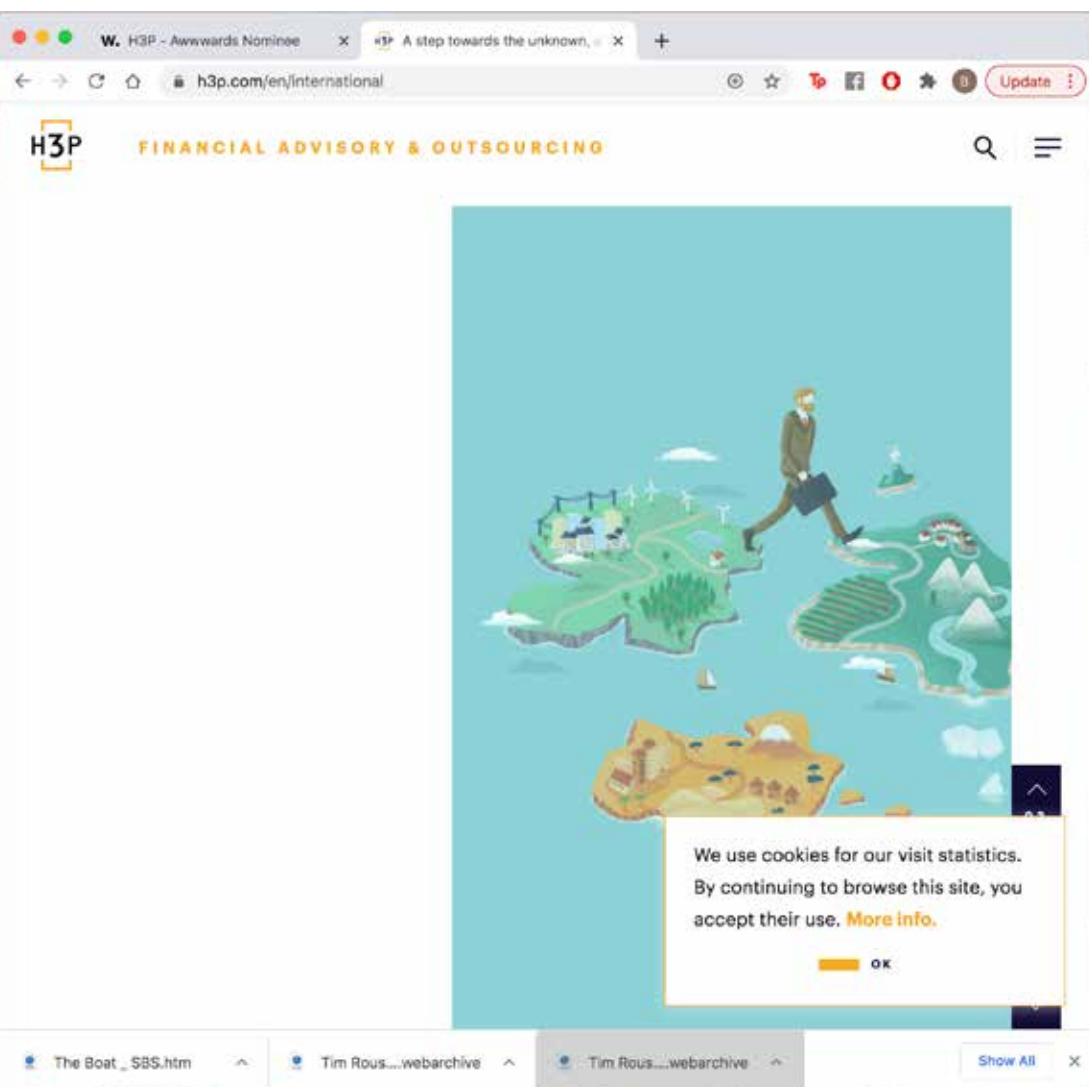

Scrolling back up shows the header, scrolling down hides the header.

I want the images to be watercolour as they give a nice, warm, and whimsical feeling to the reading experience.

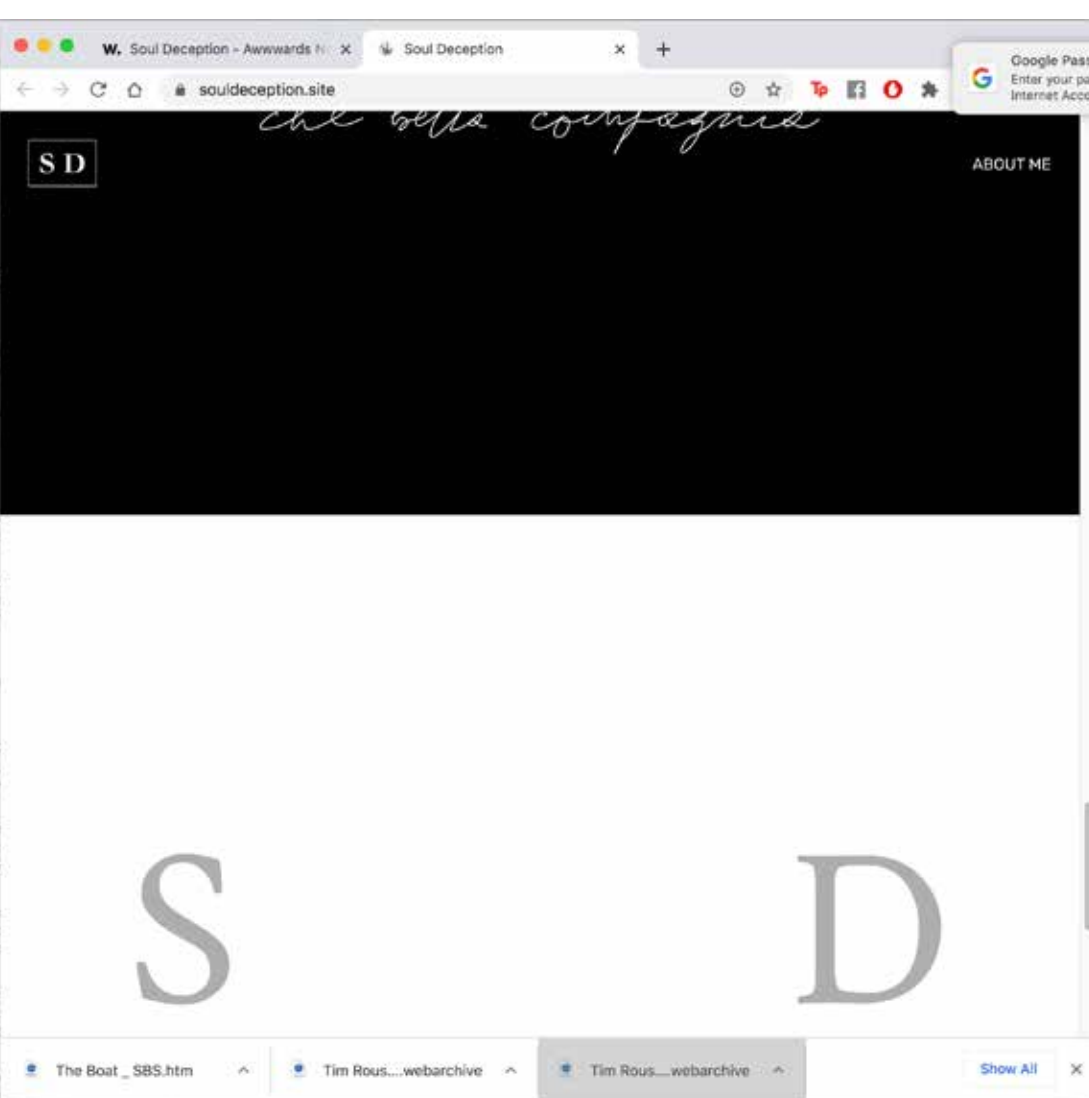

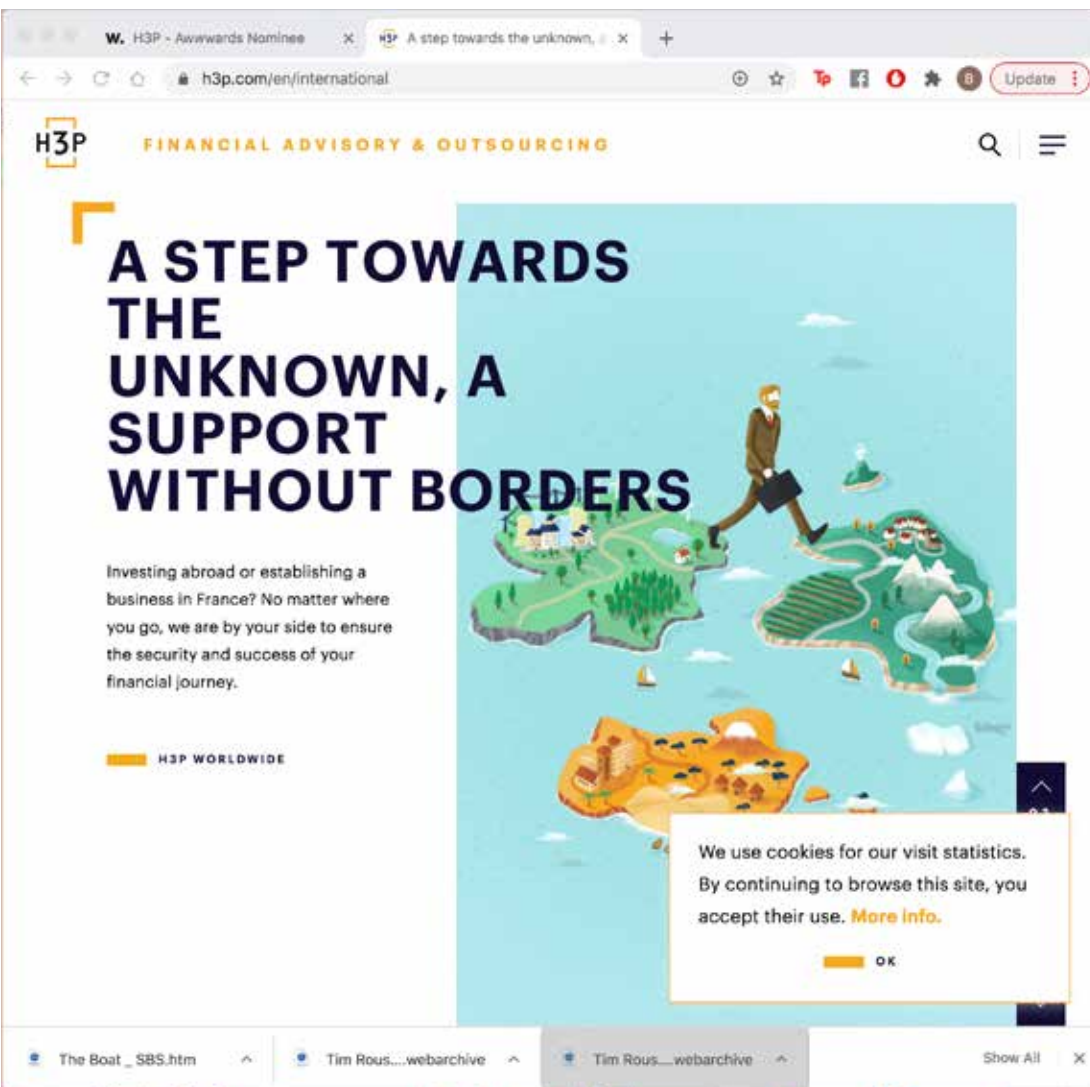

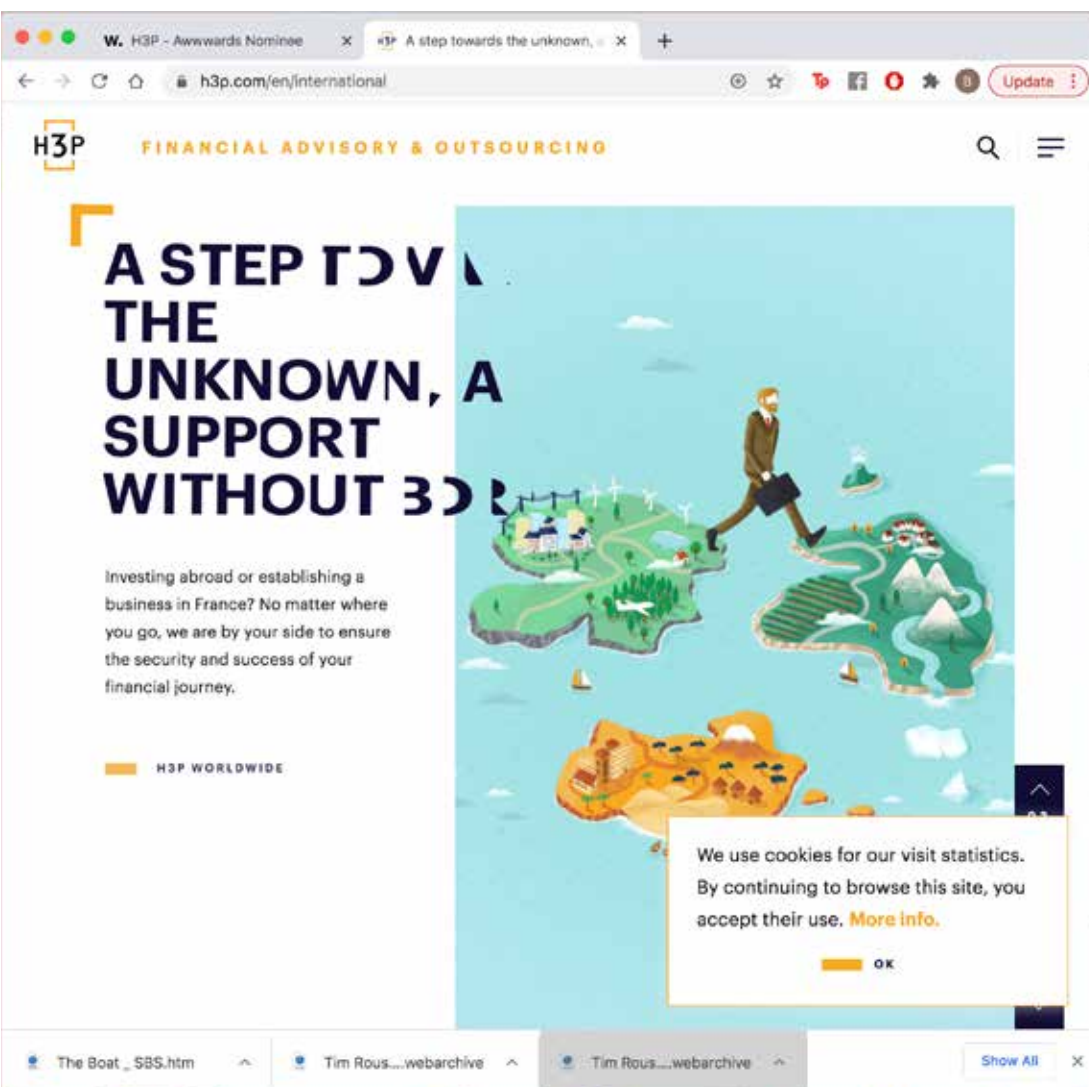

Features

- Fade out text and images
- Enlarging text
- Scrolling navigation
- Text layer above the images

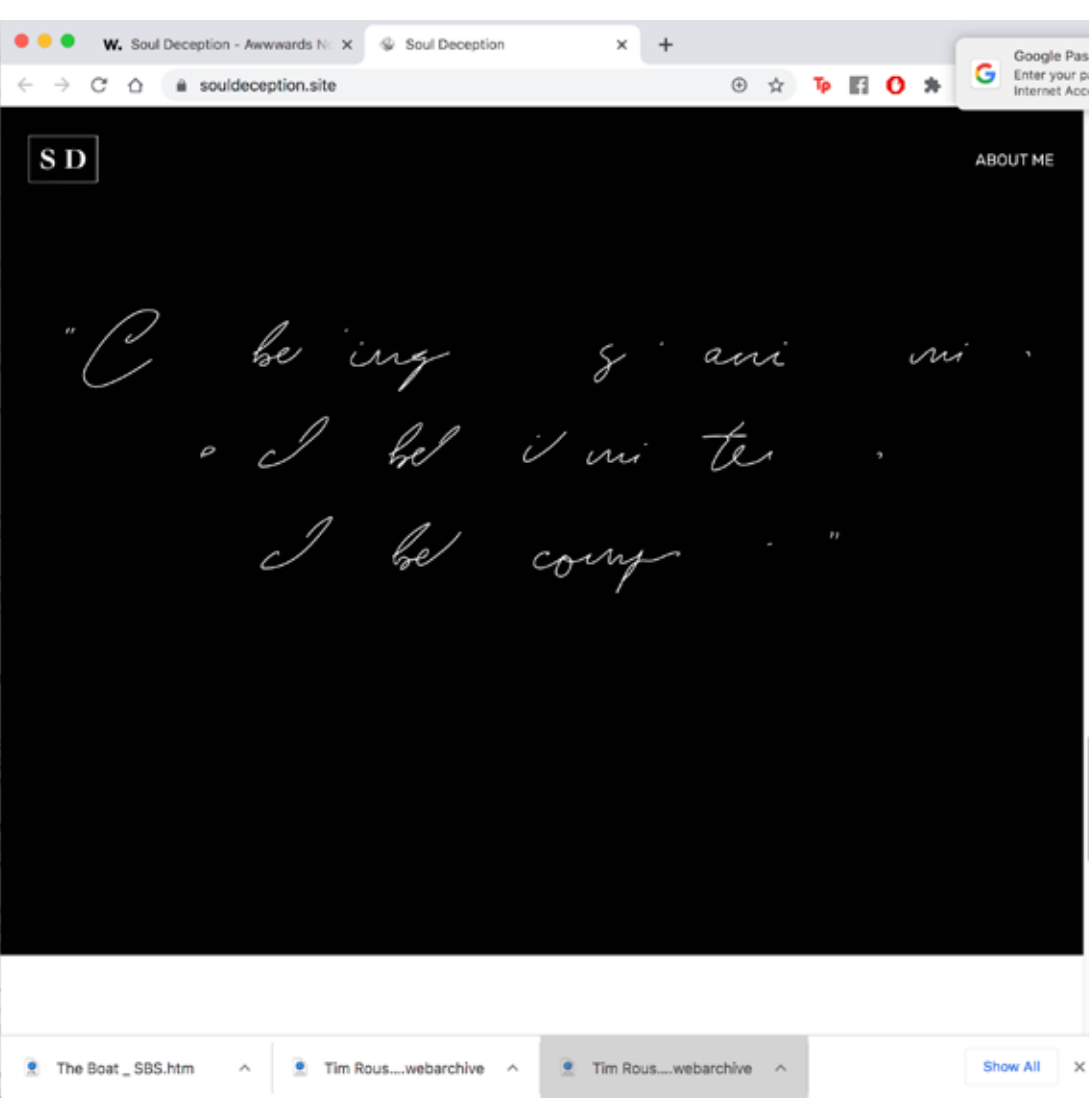

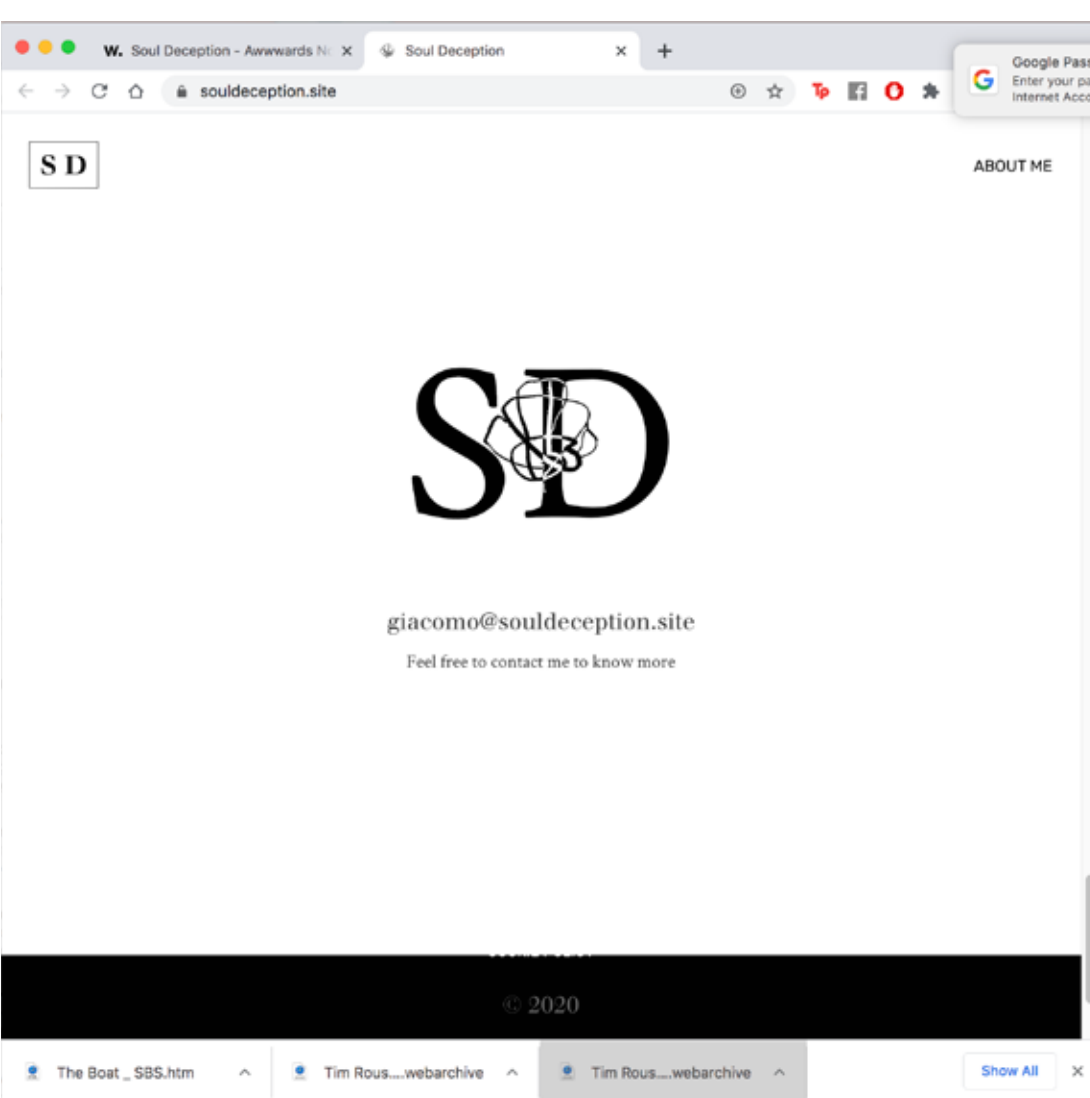

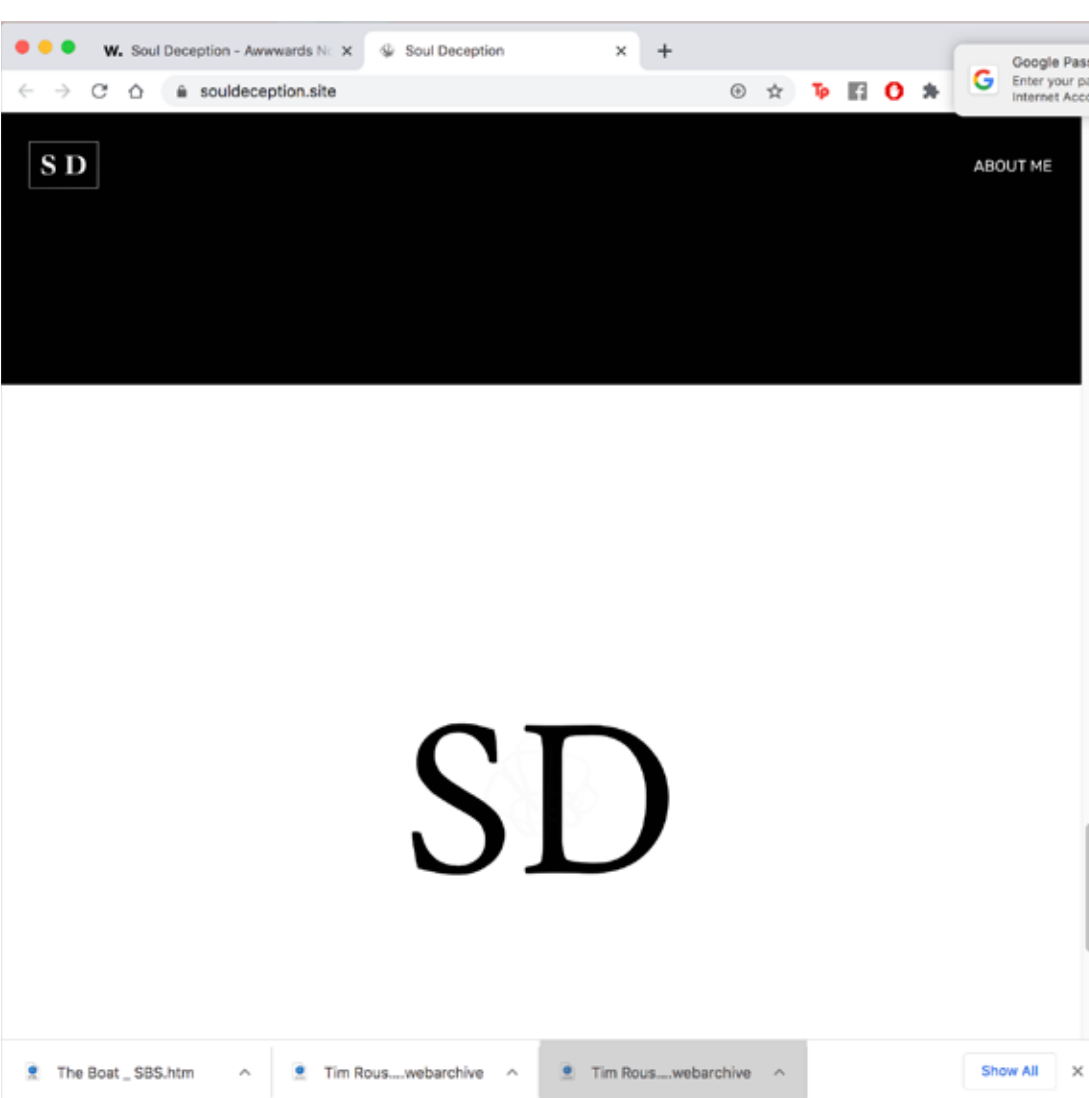

Examples of Inspiring Interactions

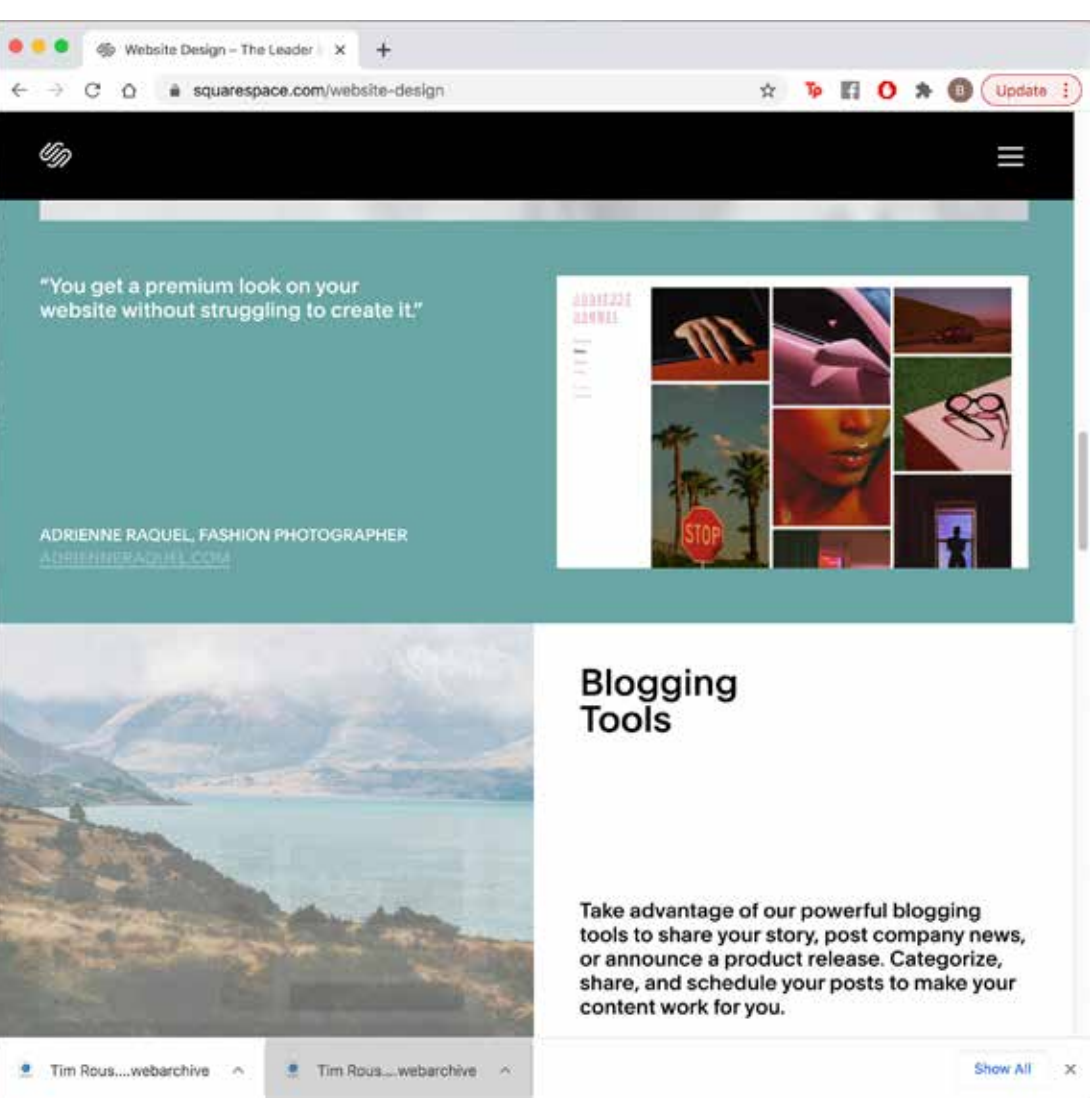

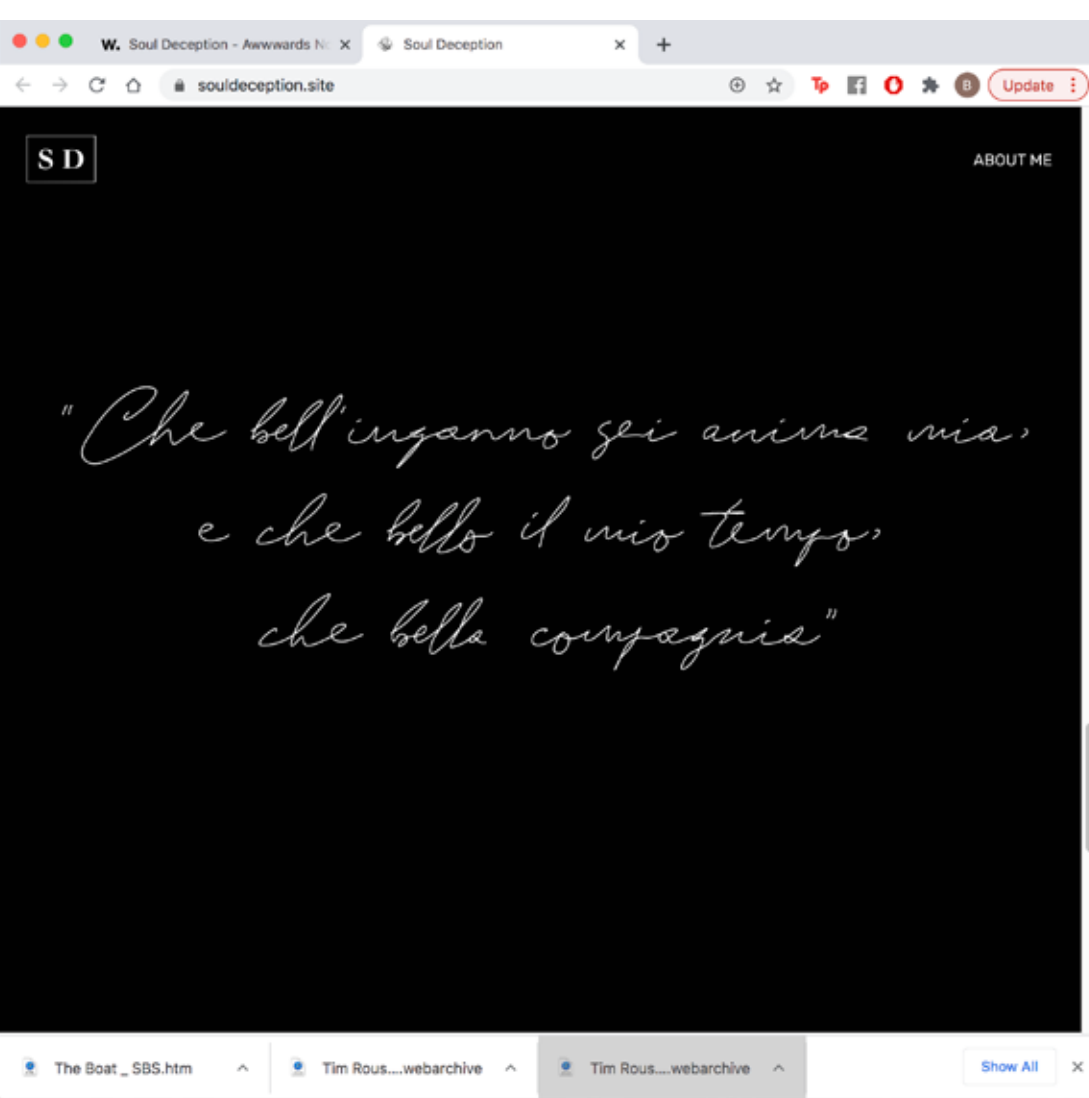

Letters of the title and the moving illustrations slide in from the left. The letters quickly make words.

As the letter scrolls, the text fades in and comes in from the left and right sides, ending with a logo and contact information fade in.

As the user scrolls, more of the text shows up until the entire paragraph is shown.

Images quickly fade in when scrolling down.
